4. Release of Victim Information:

Information regarding victims of incidents in the Department shall not be released until family members have been notified or 36 hours have elapsed since the incident, which ever occurs first. The Department shall make every effort possible to ensure that the next-of-kin or emergency contact person has been notified before releasing the victim's name. The facility shall document all efforts to notify the next-of-kin or emergency contact person.

J. Media Pools

1. The Facility Head or CCO may establish a media pool whenever it is determined the frequency of requests to cover a situation or event warrants such action.
2. A PIO designee shall notify news media representatives who have requested permission to cover a given situation or event whenever a media pool is established.
3. All members of the media pool shall be selected by the CCO and shall consist of no more than two representatives each from the television, radio, and print media.
4. News media representatives selected for the pool shall sign an agreement to ensure all news material generated by the media pool is made available to all media without right of first publication or broadcast. As a courtesy, broadcast media shall be asked to present the material without reference to origin or a clean feed. (Attachment III.)

K. Access to Facility by Non-News Media

Non-news media requesting formal, in person, recorded interviews with offenders or requesting production projects within Department facilities or about Department operations will, absent unusual circumstances, be required to pay a location fee for access, to be determined by the Department. Such fees are intended to compensate the Department for the direct and indirect burden and expense of hosting such requests and projects and to recognize the commercial, profit-making nature of the production. Consideration of such requests shall include consultation with the affected facility/division head and the Commissioner.
